German Chiefs To Be Accorded Further Chances

Prime Minister to Ask Hitler Approval of
Plan For General Peace of Europe—
Italy, France to be Included

By SIDNEY J. WILLIAMS

British United Press, Exclusive Cable to the Edmonton Bulletin
LONDON, Feb. 4.—Prime Minister Neville Chamberlain has decided to approach Adolf Hitler through diplomatic channels to see whether he is willing to implement the pacific statements he made in his Reichstag speech Monday, it was understood today.

If the proposed diplomatic exchanges revealed a genuine desire by German leaders to open more formal negotiations, it was said in well informed quarters, Chamberlain would be ready to propose to Hitler a joint British-German declaration of the desirability of beginning general European peace talks in which France and Italy would also take part.

It was understood that the cabinet, at a special meeting yesterday, agreed to this program.

Any peace talks would naturally include Italy's claim against France to satisfy Benito Mussolini's undefined "aspirations" in the Mediterranean, and this would be a victory for him in that he would have the voices of Chamberlain and Hitler to urge a truce settlement.

At such a conference also, Hitler would make his formal claim for return of Germany's colonies.

But there was a most important qualification for any general peace talk: The German government was not willing to discuss Germany's colonial claims except as part of a general settlement which would include the return of Germany's colonies.

HOUSING ACT IS SCHEDULED FOR SESSION

Obstacles To Home Building
In Alberta Will
Be Removed

Seeking to co-operate in every way with the extension of Dominion Housing Act facilities to this province, a housing act will be introduced by the provincial government at the legislative session opening on Thursday next. Assurances of this were given by Premier William Abernethy on Friday, during a conference with Mayor J. W. Fry and F. W. Nichols, M.R.A.C., director of housing for the Dominion finance department. The conference was held at the legislative buildings.

For some time it has been rumored that the government proposed to introduce a housing act at the coming session.

As a matter of fact a housing act already is on the Alberta Statute Books, having been ratified by the Legislature at the regular 1938 session and was complementary to the Dominion Housing Act.

Terms of the Act never have been made operative—although the Act is in force—by reason of loan committee declining to make advances for housing purposes in this province. It was stated by Nichols.

INTERDICTION OF RELIEFERS IS NEW ISSUE

Drumheller Recipient Is
Central Figure In Legal
Duel

DRUMHELLER, Feb. 3.—Brian Smith, Drumheller relief recipient, who, according to city solicitor W. B. Sanderson, has cost the city of Drumheller \$5000 in various forms of relief in the past three years, is the central figure in a legal duel surrounding the rights of municipalities to the inter-diction of relief recipients who, in the judgment of relief officials, should be deterred from use of intoxicating liquor.

Smith, interdicted three months ago, has P. C. Mayer, K.C., pleading his case, with City Solicitor Sanderson representing the city, before Magistrate J. H. MacInnes. The hearing begins Tuesday morning.

At the hearing Friday afternoon, both counsel argued on legal points. Mr. Mayer declared that he may find it necessary to call liquor commissioner J. A. King of Edmonton as a witness.

Mr. Sanderson argued that there had been no action on the part of city officials and that the original interdict had been sought due to medical advice which Smith had disregarded. The city, he declared, had spent large sums of money sending Smith to specialists in Calgary for examination in addition to substantial bills for treatment and operation in Drumheller hospital.

LIGHT DOCKET FACES CALGARY CRIMINAL COURT

CALGARY, Feb. 4.—One of the lightest dockets in several years will face Mr. Justice A. F. Ewing when he presides at the opening of the spring criminal session in Calgary on Monday morning.

Included in the list issued by A. L. Smith, K.C., of the attorney-general's office here, is the case of the Calgary youths, alleged to have been involved in the shooting of the body of the Dominion Bank in Calgary November 13.

Names of F. Carlyle Robb and W. D. Smith, former officials of the Calgary Police, and of P. C. Robb and Captain, Linton, appear on the docket, but it is considered unlikely that any charges of theft and conspiracy will proceed at this time.

In Sweden, the ten-dollar piece of 20 years ago weighed about 41 pounds, and measured about one foot ten feet.

Director

EDMONTONIAN DIRECTOR OF LUMBER BODY

WINNIPEG, Feb. 4.—F. W. Hess, Calgary, and A. J. Brown, Edmonton, were elected directors for Alberta at the annual convention of the Western Retail Lumbermen's Association here Friday. Charles H. Wentz, Saskatoon, was chosen president.

The association passed a resolution asking the Dominion Minister of Transport and Provincial Minister of Highways to take immediate steps to place motor truck transportation under strict regulation.

Lumbermen might be forced to cut off supplies of relief fuel for Saskatchewan, while the road supplies were made more promptly in future, said A. Godfrey, Winnipeg, in addressing the convention.

CONDEMNED MAN
REFUSES PARDON;
IS GUILLOTINED

RENNES, France, Feb. 4.—Léon Desfontaines, assistant to France's high executioner, Anatole Delteil, who died unexpectedly Thursday, succeeded his master, at least temporarily, today. Desfontaines officiated at the guillotine when Maurice Pelage, convicted murderer, was executed after this morning. Pelage refused a pardon from President Albert Lebrun, which the president traditionally offers the first man to be guillotined after the death of the senior executioner.

The prison chaplain, explaining Pelage's refusal of the pardon, said the condemned man confessed his crime at Christmas time. Since then, the chaplain said, he had shown only a desire to expiate his guilt.

Greenwood Hears
Own Strong Voice
Since Nazi Pact

British Union News, Exclusive Cable to the Edmonton Bulletin.

ST. CATHARIES, England, Feb. 4.—Arthur Greenwood, Laborite member of parliament, said here in a speech today that "during the weeks since Munich the one strong voice heard in the British House of Commons has been that of the President Roosevelt's words, 'Greater the danger, greater the need for new moral strength to the Democracies in Europe, who are bitterly divided by the lack of moral leadership on the part of Great Britain'."

Had Chamberlain forged the bonds of friendship with the Democratic peoples and inspired them with new courage and a new outlook, he would have been a different and more hopeful, for it is only by recognition of the danger to the world that peace can be maintained.

Sources Foreign Propaganda Will Be Ferreted Out

WASHINGTON, Feb. 4.—Backed by a top-heavy vote of confidence from the House of Representatives today, the House of Representatives will ferret out sources of "foreign propaganda" that may get the United States into war.

"We should look into this very important matter of foreign propaganda as it relates to war," Dies asserted, "find out its origin, and determine where the money to finance it comes from and how much is being spent."

Eiler, Housekeeper Are Facing Charge Of Manslaughter

WINNIPEG, Feb. 4.—Stephen Eiler, 40, and his 22-year-old housekeeper, May Ryan, were charged today with manslaughter this morning in connection with the death of suffocation of Eiler's six-year-old daughter, Rose Marie. They were remanded to Feb. 9 for preliminary hearing when they appeared in police court here.

The charge was laid following a coroner's inquest last night, which found Eiler, unemployed mechanic, responsible for the child's death.

Going Modern

BARMOUTH, Wales, Feb. 4.—An announcement has been made that the Royal National Lifeboat Institution will provide a new motor-cum-diesel at Barmouth, replacing the present pulling and sailing boat.

Baby Unhurt

LONDON, Feb. 4.—Apparently over a six-foot wall after being stolen from a carriage while his mother was shopping, a three-month-old baby was found unharmed.

DAIRY SUPPORTS BIG POPULATION FRASER STATES

The dairy industry of Canada directly employs 17 per cent of the population of this country, according to Allan C. Fraser, secretary and manager of the National Dairy Council, Ottawa.

Mr. Fraser came to the city Saturday morning to see E. T. Love, of Woodland Dairy Ltd., vice-president of the dairy council and other local dairy officials. He speaks in Calgary next week at the provincial dairy conference.

Increase of quotas in the U. S. Canada trade agreement would help the dairy industry, Mr. Fraser said. The quota have been raised for that purpose, at any rate, he explained.

Extensive production of butter, and need of enlarged cheese production, were cited by Mr. Fraser as two of the problems of the industry.

While explaining that the butter problem was not insoluble, Mr. Fraser said that December figures showed a butter surplus of 600,000 or some 11 million pounds. He urged that a study of world production factors take place.

Canadians eat only about one-half as much cheese as people in Great Britain and about one-fifth as much as the Americans. In other countries, but are much bigger meat eaters, he said.

Formerly certain agreements whereby American companies could continue exporting films in Italy, but that these agreements could not be obtained. As a result, he said, American companies were forced to cease exportations there.

Continued From Page 1 Lousana

south of Louisiana on Highway 21, to a point seven miles west, where it was connected with the road running around the lake. It is pointed out that as there is plenty of gravel at hand the cost of putting in the proposed road would be greatly lessened.

Fine Lake has been a local summer resort for 30 years and is one of the best fishing lakes for its size in Alberta. Those behind the project say the dam, which is sited on the Canadian side of the lake, would solve the traffic problems of the Calgary-Edmonton highway during tourist season.

"Drumheller and many small towns along the route are interested in the first of the year with a new government film, possibly west into Italy. Reliable Italian sources said, however, that the Italian government intended to force Columbia, Radio, Keith, Orpheum and Universal Pictures to maintain their existing contracts to sell films in Italy despite the monopoly.

Has said the Italian decree provided certain agreements whereby American companies could continue exporting films in Italy, but that these agreements could not be obtained. As a result, he said, American companies were forced to cease exportations there.

Continued From Page 1 Royal Visit

D. Colwell of Calgary, general superintendent of C.P.R. lines in the province, they are staying in Mr. Neal's private car.

Present tentative plans, Mr. Neal said, indicate that Their Majesties and party will be taken across the Dominion by special C.P.R. trains and have a return trip across Canada.

Under the auspices of the Canadian National Railways.

"The visit of Their Majesties to which we all have been looking forward with such anticipation, will be a notable event in the history of this country," the railway executive remarked.

CRIM ESTATE

Reminded by a reporter of the "removing accuracy" with which Mr. Neal had predicted the use of Canadian's crop many months ago in his interview here, after an inspection tour of the west, the minister said that this was an in-between season now and realistically declined any further predictions about business conditions.

"But I'm willing to talk about your bright sunny weather," he said. "This is typically sunny Alberta weather, and while it's bright and sunny, it's also a little bit cold, wet, and winter weather I encountered in the east country when I was here."

Americans to Cease Exporting Films to Italy

United Press
NEW YORK, Feb. 4.—American motion picture companies will cease exporting films to Italy in Italy despite the monopoly.

Has said the Italian decree provided certain agreements whereby American companies could continue exporting films in Italy, but that these agreements could not be obtained. As a result, he said, American companies were forced to cease exportations there.

Dapper French Executioner Chops Off Heads of 400: Also Tends Roses

British United Press, Exclusive Cable to The Edmonton Bulletin.

PARIS, Feb. 4.—Henri Aubert, 70, the dapper, white-haired little man who was the official executioner of France for 40 years, died today as he was descending the stairs of the St. Cloud guest house.

Monique de Paris, as he was called by the public with the shuddering affection in which he was held, had chopped off the heads of more than 400 persons. He tended to his roses and played with his turtles in the garden of his little villa at St. Cloud between official jobs.

Precise, tactful and delicate in his relations with his clients who acceded to the execution.

ECHOES OF GUN REPORT TO BE HEARD MONDAY

Debate to Resume in Commons on Motion of Grant MacNeil

OTTAWA, Feb. 4.—Echoes of the Bren gun report will be heard in the House of Commons Monday when debate resumes on the motion of Grant MacNeil (C.F., Vancouver North) to refer to the whole question to the public accounts committee.

To allow time for members to ponder his suggestion, the debate on the Bren contract was delayed until after the committee has reported on it. Prime Minister Mackenzie King adjourned debate on Mr. MacNeil's motion yesterday.

LIVELY DEBATE
The house adjourned at 6:30 p.m. yesterday after more than two hours' lively debate on the plight of Nova Scotia lobster fishermen who sold equipment losses estimated at \$100,000 to \$125,000 in a late December.

In his Bren gun statement Mr. MacNeil moved that a five-point reference be made to the public accounts committee on public accounts to ascertain:

1.—Whether or not the possibility of public manufacture of the Bren gun was fully explored.

2.—Whether or not individuals examined at the inquiry made accurate statements.

3.—Whether adequate reasons existed for failure of the interdepartmental committee, created to examine munitions contracts, to report back to the government when the system of supervision of contracts fell down.

4.—Whether procedure followed in negotiating the contract protected the public interest.

5.—Whether proper steps were taken to ensure proper discharge of the responsibility assumed in selection of a favored contractor.

NOT OPPOSED
In reviewing the whole series of events leading up to the award of a contract to John Inglis Company Limited of Toronto for 7,000 Bren guns without inspection, and the subsequent Davis commission inquiry, Mr. King requested that Hon. J. B. McPherson, minister of defense, oppose the motion but suggested it would not be for members of the house who would vote on the committee to prejudice its report by entering into debate at this time.

\$100,000 Fire Hits City Of Owen Sound
OWEN SOUND, Ont., Feb. 4.—A \$100,000 fire destroyed three stores, caused smoke and water damage to three others, and for a time threatened to wipe out a business block early today. It was the city's worst fire since 1922.

Occupants of three apartments over the store had ample time to escape and to save their belongings. The fire started in the basement and worked upward, where it was discovered at one o'clock, it was under control by 4:30 a.m.

James Lick, founder of Lick Observatory, lies buried beneath the pier of the great telescope, atop Mount Hamilton, Calif.

Nadine de Paris as the gallant, white-haired little man of his work and was quite hard when, three years ago, he was awarded the Legion of Honor as he had expected.

Debuter inherited his job from his father in 1903 and willed it to his lanky son-in-law, Andre Perrier, his children, and his grandsons.

He was of the fourth generation of Debuters who have been official executioners of France for 120 years.

Local hospital authorities said both men had recovered their memory and would be discharged from the hospital.

Ernest Fraser, 23, was identified by his mother but she failed to recognize her son before Fraser's identity was established. Hospital attendants admitted the victim, who turned out to be John Fraser, 60.

John Fraser, who lived on a street and said he lost his memory, Ernest was taken to police headquarters and then to hospital last night after a waitress in a cafe near the hospital told police he had forgotten his name.

Continued From Page 1 Housing
that their reason was the Alberta Housing Act, which, they claimed, was an obstacle to the collection of the debt incurred.

OBSTACLE
In the act to be brought in at the coming session, this obstacle will be removed by a simple amendment, according to the Housing Act, from provisions of the Debt Arrangement Act.

At present some debts, such as those owing under the Farmers' Creditors Arrangement Act, are exempted from the Debt Arrangement Act.

The conference on Friday, Premier Albertin expressed his desire to see the Housing Act amended to give the operation and implementation of the Housing Act.

NO OBJECTIONS
The premier announced Mayor Fry and Mr. Nicol that the government had no objections to the Dominion act and that it always had been willing to give every possible support to projects coming within its scope.

In addition, the government had no idea of cancelling any obligations of the Alberta Housing Board, and the subsequent Davis commission inquiry, Mr. King requested that Hon. J. B. McPherson, minister of defense, oppose the motion but suggested it would not be for members of the house who would vote on the committee to prejudice its report by entering into debate at this time.

Greenwood Says Apparent Is Pitiful Tragedy
ST. HELENS, Lancashire, Eng., Feb. 4.—Arthur Greenwood, Labor front-bench in parliament, last night called Prime Minister Chamberlain's apparent policy "a pitiful tragedy."

In a speech here the deputy leader of the opposition charged the dictators had become more assertive since the Munich settlement.

Liberal To Run
MIDLAND, Ont., Feb. 4.—Mayor James Mackie said today he was considering entering the Feb. 7 election for the House of Commons as an independent candidate. He is a Liberal.

University Male Students Learn Various Techniques Co-eds Use to Avoid Petting

Excluded to Edmonton Bulletin. MINNEAPOLIS, Minn., Feb. 4.—A group of University of Minnesota male students learned of various techniques co-eds employ to avoid "petting," and found, too, that some have no technique at all.

A dozen men attended a university forum at which co-eds answered a questionnaire of men. One girl said she avoided embraces by struggling for a while, then asserting she was the man's pet, finally telling him pointedly to get away.

Pink Elephant No Longer Is Big Shot of Tremens

BOSTON, Feb. 4.—The pink elephant no longer is the big shot in the parade of animals "seen" by the alcoholic in the throes of delirium tremens.

The elephant, who gradually being ousted from its throne on the streets by drugs and alcohol and an occasional whale and hippopotamus.

Dr. John A. Dyer, Boston, writing in the New England Journal of Medicine on a survey of alcoholic patients at the Psychiatric hospital, said only four of 100 patients with hallucinations reported seeing elephants tramping on the bed-clothes—and only one of them said his pachyderm was a delicate shade of pink.

Dogs, insects, snakes, birds, cats, tigers, and rodents led the field in that order among subjects who reported seeing animals. They said they saw a whale and a hippopotamus, respectively.

clude an agreement for limitation of arms, and if not for actual disarmament.

Further, there was no let up in the list and other members said there would be assurance of a general settlement.

Statistics Tell Story of Growth of Great Industry
Continued From Page One

In the years from 1914 to 1924, total production in Alberta was 98,504 barrels from then on production mounted until 1931 when it reached 1,453,195 barrels. The 1931 record stood until 1937 when production totalled 2,748,989 barrels and then this was displaced by the 1938 record. Since 1934, total oil production in Alberta has reached 20,214,341 barrels.

Two of the most important events of 1938, said Mr. Irvine, were the bringing into production of the Home-Mineral wells and Okla. No. 6. Their location proved a larger area of the Turner Valley which Mr. Irvine estimated now extends 30 miles beyond its former limits.

At the end of 1938 there were 64 producing wells in the valley compared with 33 at the end of 1937.

Conservation steps are reviewed under direction of the Petroleum and Natural Gas Conservation Board during the last three months of the year. The board is headed by W. F. Knudsen, former Texas oil engineer, with C. W. Duggan, former director of oil and petroleum and natural gas division of the department, and F. G. Cottle, former auditor for the Board of Public Utility Commissioners.

COMMISSION MADE
A youth committee of Mr. Justice A. A. McGivern, chairman, and Major L. R. Lipert of Ardley, Alta., as a royal commission to investigate the oil industry in the province was named. Brief summary of evidence already presented was given and further evidence is now being submitted at Calgary to the commissioners.

Dealing with other oil fields in Alberta outside the Turner Valley area, Mr. Irvine reported some wells already developed production while others hope to reach the same goal and drilling has been undertaken. Among the wells which he classed as interesting were the Hinton-Hinton well 10 miles south of Wainwright; North Turner Royalties No. 1, 26 miles east of Lethbridge; and the Ram river well, 100 miles west of Red Deer.

Development work in other fields included the Alberta well on the Clearwater river 20 miles south of the Ram river well; Peace Coulee wells near the Alberta-British Columbia boundary in the Peace river country; the Hinton-Breathu well in the Breathu area 75 miles west of Red Deer; and the Leduc field in the Alberta-Saskatchewan border.

FEWER ARE MADE
Test at Stirlingville, 10 miles northwest of Medicine Hat, Moose Mountain, 30 miles west of Calgary; two wells at Cassville River and Savannah creek in the southeast part of the province and Milk River and Del Bonita in the international boundary area. The tests are being watched with great interest.

Mr. Irvine recalled efforts to obtain lower freight rates on shipments of crude oil out of Alberta to efficiency. "A successful conclusion of this effort will mean a great boost to the Alberta oil industry," he said. "With rapidly increasing growth of production in the province it is imperative that additional markets must become established."

CANUCK SPAIN WAR VETERANS SPEEDING WEST

Edward Potvin, Edmonton, Is Carried On Train In Wheel Chair

HALIFAX, Feb. 4.—A minor road train sped westward from Halifax last night, bearing to their homes the nearly 300 members of the Mackenzie-Papineau battalion who landed here Friday from the steaming Duchess of Richmond after months in war-torn Spain.

A smaller group, many of them the more seriously wounded veterans of the Spanish civil war, sailed from England yesterday. Others will follow next week, practically completing evacuation of Canadians from Spain.

Of all the train loads that ever pulled out of Halifax with "returned soldiers," yesterday's string of colorful cars possibly was the strangest. The soldiers were by no means gay and despondent by nature, they were gay because they were back in Canada, despondent because they had fought for what nearly all admitted was a lost cause.

One man, Edward Potvin, 35, Edmonton, was carried off in a wheelchair. Just the month ago he was on observation duty in a front line trench near Barcelona, when a sniper's bullet struck him. It passed across his back, injuring his spine and paralyzing him from the waist down. He is recovering use of his legs gradually.

Nearly all said they had enlisted because they were sympathetic to the "fight for democracy." Some said they gladly would enlist again in a "fight for democracy," but a few were tired of war and said no more.

Cultivation Of Wild Rice By Indians, Plan
OTTAWA, Feb. 4.—The Indians of the Department of Mines and Technical Surveys today instructed officers of the branch in Manitoba, Saskatchewan and Alberta to survey the possibilities of the cultivation of wild rice by Indians.

Oldest cereal crop harvested in Canada, wild rice commands high prices in United States markets due to a reported shortage.

Skiers Frozen
TOKYO, Feb. 4.—Events of a party of 17 skiers caught in a blizzard on Mount Hakodadai have been frozen to death. The accident was averted today. Mount Hakodadai was the scene of a disaster in 1899 when 300 skiers were caught in a blizzard during a forced march and perished.

British Statesmen Talk Foreign Policy
LONDON, Feb. 4.—Headed by Viscount Baldwin, foreign secretary, and Earl Baldwin, former prime minister, public men addressed audiences all over England last night with foreign affairs as their principal topic.

Lord Halifax went to Hull to deliver an invitation to Germany to its economic position would improve if it were willing to discuss its armament costs. He said Britain had no desire to shut Germany out of trade markets.

Lord Baldwin told a youth conference in London that "dictators" are like great black trees, magnificent and imposing to look at but nothing grows underneath them." He believed young Britons were as willing to make sacrifices for their ideals as at great an extent as his Fascists and Nazis for their regime.

Arthur Greenwood, deputy leader of the Labour party, calling Prime Minister Chamberlain's appeasement policy "a pitiful tragedy," said Germany's tightened hold on Czech-Slovakia and Italy-made financial demands on France which it portended to on lead only to disaster.

Nazis Refuse Accept Roosevelt Explanation
BERLIN, Feb. 4.—The controlled German press refused to accept today President Roosevelt's statement that a report he had said the United States' default in the Munich pact was a "lie."

Observance of Christmas in England was forgotten by act of war. The most famous church in Great Britain, Westminster Abbey, London, should more correctly be called the Collegiate Church of St. Peter.

"Good night!"

"Boys," said Mr. Picobac pushing back his chair, pipe clutched firmly in one hand, the other up-raised, palm outspread. "I've got a wife, I've got a home. And what's more, I've got a half-pint Lick-Tin of Picobac tobacco at home. Do you think I would trade a mild . . . cool . . . sweet smoke and a quiet evening in my own home to stay out late and play poker with you fellows? Not for a million dollars, Good Night!"

"Come on," urged the crowd. "We'll stake you." "That's different," grinned Mr. Picobac, resuming his seat and striking a match. "Ten forty cents in the hole."

Picobac is the pick of Canada's Burley Crop, grown in sunny, southern Ontario. For sale everywhere.

"It DOES taste good in a pipe!"

HANDY SEAL-TIGHT POUCH - 1 1/2 L.B. "LOOK-TO" TIN - 60c also packed in Pocket Tins

ELECTRICITY AND BREAD

Texture . . . Uniformity
Cleanliness

A trip through the modern bakery reveals that Electrical devices have much to do with the high standard of quality. Pictured above is some of the electrical equipment in daily use at McGavin's Bakery in Edmonton.

A battery of high speed mixers is seen at lower right. From these mixers the dough is delivered to the fermentation room, then, through chutes, to the divider (lower center), which automatically cuts it to the size and weight required for a 30 oz. finished loaf. Electric conveyors whisk it on to the Rounder . . . the Proofer . . . the Moulder, where loaves of standard shape are formed, ready for the pans and bake oven.

EVERYWHERE ELECTRICITY IS MAKING FOR FINEER QUALITY PRODUCTS AT LOWER COSTS.

Money Versus Barter

Germany has loaned Turkey \$60,000,000. But Turkey won't get the money. It will get credits at Berlin for the amount, against which it can buy German machinery and other goods, to be paid for in future in figs, carpets, tobacco and other Turkish products. Thus German factories will hum and Turkish producers be kept busy turning out the commodities for exchange. The loan figures are named only for book-keeping purposes.

British interests a while ago loaned Turkey \$72,000,000. Whether real money or only credits at London is not clear. Probably Turkey really got the money—and can spend it where it pleases, perhaps also for German goods. Those are the terms on which British loans are usually made: as the barter arrangement cited above is the only type of "loan" Germany is making anyone.

The essential difference is that British financiers lend gold or its paper equivalent, good anywhere; while Germany lends nothing but goods. Which the more certainly helps the industrial life of the lending country is plain enough.

Alberta Holds Its Own

More motor vehicle licenses have been taken out in the first nine months of the present fiscal year in Alberta than ever before, 105,520 in all. This works out to one vehicle for each 7.4 persons in the province. The average for the Dominion in 1937 was one vehicle for 8.4 persons. Alberta, it appears, are driving fully as many cars in proportion to population as the people in the other provinces.

This is a particularly good showing after eight years during which drought, deflation and low prices for farm products have borne heavily in Alberta than upon the residents of the other, wealthier and more populous provinces.

More heavily than upon the people of any other province except Saskatchewan. Alberta's population is widely scattered, mainly engaged in farming, and the average distance from market town and trading centre is many times that of farmers in the other provinces. To the Alberta farmer the motor car is therefore less a luxury than a necessary time-saver. This no doubt accounts in large part for the higher proportion of cars operated in this province despite the severity of conditions in recent years.

The Last-Ditchers Held From

If Hon. C. H. Cahan has anything to do with setting the course, Hon. E. J. Manion and his Conservative followers in parliament will make a last-ditch fight against the Canada-United States trade agreement. Mr. Cahan made that plain on Tuesday. He scoffed at the notion that free trade would bring better times or cultivate international good feeling. And he propounded the old standby prescription for inducing prosperity in Canada; a Haman's gallows tariff and the further expansion of industry by hot-house methods.

And, as usual, patriotism was called upon to resist this new proposal for "truck and trade with the Yankees." The spokesman for the "James street" interests discovered that some senator from North Carolina wants Great Britain to present the United States with a corridor through British Columbia to Alaska, also the Bermuda Islands, and perhaps control of the St. Lawrence waterway and the great lakes.

Lack of imagination on the part of the North Carolina senator or the member for St. Lawrence-St. George no doubt accounts for the failure to add a few more items to this little list of imaginary prospective donations to the United States. Seeing the moon is now about full they might have thrown in that rather attractive celestial object also if they had thought about it.

Whether Mr. Cahan was more anxious to attribute cupidity to the United States, or to allege treacherous subservience to Prime Minister Chamberlain, is not quite clear. He probably doesn't care which, who or what is attacked so long as he can head off the threatened competition with the vested tariff and financial interests for whom he speaks.

Since the United States has not asked

for hand-outs, and Great Britain could not give away Canadian territory and rights if it wanted to, the ravings of Mr. Cahan are only interesting and important as showing the methods by which the fight in the Opposition are prepared to fight the new trade agreement.

The Test of Results

In large display advertisements, men behind many of Canada's great business enterprises are bearing testimony to the part that newspaper advertising has played in building the concerns they represent. Unquestionable proof of the value of the daily paper as a means of publicity is the success that has been gained by firms now of nation-wide repute which have consistently used the advertising columns of the newspapers to reach the consuming public.

For the generous tribute these business leaders are thus paying to their work as advertising mediums, the newspapers are of course grateful. Nor is the newspaper reader a disinterested party. Because of the support thus given, it has been and is possible to serve him with larger and better papers than could otherwise be published at any corresponding cost to the subscriber. And because of the broad demand so created, products have been sold as widely as could otherwise have been done, and the buyer has the names of national organizations to guarantee the quality of the goods he is asked to buy.

Canadian industry and the Canadian newspaper have grown side by side, largely because of the help each has given the other. Without this mutually helpful association, neither could have attained the efficiency or the proportions it now has. What newspaper advertising has done to expand and strengthen those enterprises which have used it consistently, it is still doing and will continue to do. The printed word is now as always the dependable and effective means by which to reach the consumer.

Editorial Notes

The Nazi authorities, it is gently hinted at Berlin, are about ready to relent and let the Jews depart without requiring people abroad to ransom them by buying German goods. The persecutors were bound to get tired of the presence of the persecuted and the prickings of conscience. We aligned Germany with Italy, but gave no blanket endorsement to Italian demands upon France.

The Winnipeg cattle market was given a bad job when news came through that Canada had almost lifted its quotas of shipments to the United States for the current quarter and the higher rates of duty are liable to be imposed at any time. The disturbance of the market is evidence of the value to the cattle grower of the easier admission gained for his cattle into the markets of the United States by the new trade agreement with that country.

Twenty Years Ago

The legislature opened today.

The reason that it may consider is a bill to consolidate its new territorial position born of the annexation of Austria and its winning of the Sudetenland sections of Czechoslovakia. It may also be that the relatively mild nature of Hitler's speech was related to the evident increasing military strength of the democratic states. Airplane production in Great Britain seems to be hitting a formidable stride. One British newspaper says that Britain soon will be producing fighting planes at the rate of 1,000 a week. It will be a vast improvement over the evidently alarming condition of British defenses at the time of the late armaments program that is being spent again in the United States. That Hitler is recognizing that the democracies are a "blackdown" might not be the plausible parties Great Britain and France may have shown themselves to be, for the sake of European peace, last September—Hague Leader-Peak.

Edmonton Bulletin

Current Comment

Canadian Security

The Government of England does not wish to impose conscription in peace time because it hopes that all the sons of Britain will now on to do their military service to secure the independence of the Motherland. It is the same sentiment for the maintenance of peace which inspires the great majority of Canadian Elites. We do not want war, and we do not want to fight except to defend our own frontiers. It is, however, necessary that we should be prepared to defend Canadian territory, the last bit of Canadian territory. Certainly it is important that our defense effort should have been carried to the extreme limit of our capacity when the United States or Great Britain comes to our rescue—Le Canada (Montreal).

Law Ignored

One fact stands out although the Nazi Chancellor made no specific claims which point directly and immediately to a new crisis, there was nothing in his speech to suggest that Hitler proposed now to settle down to peace with his neighbors. Everything that he said leads to the conclusion that, in the future, as in the immediate past, world peace will be maintained on Hitler's terms. That is to say, if and when he asks for anything he must be given it. Germany, he said, will break no international law in matters concerning us alone with the purpose of preventing national and sensible solutions. The Hitler interpretation of such a sentence is now familiar to the whole world. Who shall decide what matters concern Germany alone? Hitler. Who shall say what solutions are natural and sensible? Again, Hitler. The Chancellor remains today what he was yesterday, the advocate, the judge and the jury of his own case. He said today, as he has rejected in the past any idea of settling disputes by any method or process of international law. Any recognition of the validity of the League of Nations, or any similar body never enters his head—Winnipeg Free Press.

The Crossroads of Life

The "crisis age" for the average man is 30 years, declared a payment meeting of the British Association for the Advancement of Science. This was the time, he added, when the average man finds it too late to turn back, to start over again, to change his mind, to change his way. Up to this time he had always played with the intriguing idea that he could change the nature of his own life, or the interests all any moment if he wanted to.

This may be quite true, but it hardly justifies the inference that 30 is the time when a man's life is at a crossroads. What about 40, for example, which has long been about the age when life has been said to really begin? It probably would begin at 40 if the average man could bring himself to the effort of starting.

How about 50, when he suddenly finds himself halfway through life and so many months ago he thought he was just beginning? He who wanted to do it, when he hasn't even started and finds that old age is almost upon him?

But what about 10, when he realizes that school is trying to teach him all the wrong abstractions, things that will never be of any use to him, and that there is no excuse and that he will just have to fiddle the rest of his life away?

It may or may not be true that life begins at 40, and established at one week or many months, but it is reasonable to say, and that is that life begins later than it did for our grandfathers, and ends later—The Winnipeg Tribune.

Negative

Herr Hitler has spoken and the world was on edge to appraise his speech to the Reichstag is difficult. The reaction is negative, in the main.

He was not negative. He kept the question of colonies open, but uttered no threats concerning them. He aligned Germany with Italy, but gave no blanket endorsement to Italian demands upon France.

The world was unnecessarily apprehensive because Hitler spoke in a negative, in the main, degree by which, relatively nothing else was to be expected at the moment. What may be significant, however, is the fact that he has made no contribution whatever to appeasement, and in the face of obvious and growing tension in Europe. He spoke in a negative, in the main, degree by which, relatively nothing else was to be expected at the moment. What may be significant, however, is the fact that he has made no contribution whatever to appeasement, and in the face of obvious and growing tension in Europe.

The Passing Show

By J. R. COWPER

All of the democratic countries seem to have been caught napping in airplane construction for war purposes, while pursuing paths of peace and appeasement. Both Italy and Germany claim a large lead in air fleets, though how far their boasts are truth, no one knows. Major General Field Marshal, in a recent issue of the "Pilot," writes on military affairs, in a recent issue of the "Pilot," writes on military affairs, in a recent issue of the "Pilot," writes on military affairs.

It is difficult to believe that Germany has created a first-line air force of 10,000 planes, all organized and ready to take off. He points out that in the fall of 1938 only 100 planes could be shown by the Nazis at their Nuremberg parade. He estimates that Germany's first-line planes in April of last year numbered about 1,500. The Reich admits only 3,000 of such planes, including squadron reserves.

"Unless a nation is deliberately building against a postulated danger which it intends to begin war," he says, "it is unwise to assemble any great number of planes in the present state of aeronautical science, for planes are being improved so rapidly that today's miracle is obsolete tomorrow." He argues that to maintain any such strength as 10,000 planes assures a vast waste of precious material which Germany cannot afford.

At this point, he says, estimate that plane losses in the first 30 days of conflict. Continuity of effort would be entirely dependent on ability to replace those losses rapidly. Conceding the advantages of Germany's state-of-the-art aircraft, he says that which she has applied to the production of munitions, he reasons that the democracies could organize production to exceed Germany's output, and Italy under the impulse and handicaps of war conditions.

Major Elliott's article appeared on December 18. Five weeks after it appeared, a new method for the mass production of airplanes is announced at Washington. It promises to revolutionize airplane production and is announced by George Beakland, vice-president of the Beakland Corporation.

PLANE FROM NEW PLASTICS. The mass production of airplanes from new plastics, he says, will revolutionize the manufacture of airplane fuselages and wings from plastic. He says that nine men in three eight-hour shifts, could produce fuselage and wings for ten planes. What fields of mass production that open up.

I had an interview with Mr. Beakland's father in 1939, soon after he announced his discovery of bakelite. At that time it bordered on the miraculous that under heat and pressure was possible to make a hard, strong plastic, fire-proof and a non-conductor of electricity by mixing an acid (phenol) with a carbolic acid (resin) and a gas (formaldehyde). Since then a new chapter in commerce has opened up in the manufacture of synthetic resins and their products. Bakelite is now used in the manufacture of 15,000 different articles, from buttons to aircraft parts, from telephone receivers to kitchen cabinets.

Building airplane fuselages and wings from wood and metal, canvas, has been a slow process. Building from one wood so many months and requiring skilled technicians. It has been the slowest part in airplane manufacture. Metal planes have called for infinite fitting of fine metal sheets, and a great deal of hand work.

ALL READY. Machines can turn out engines, to start, but fuselage and wing construction require a great deal of hand work. This has been the limiting factor in mass airplane construction.

Under the new method, fuselages and wings will be made in one-thirtieth of the present time. Impregnated wood and powerful adhesives made from synthetic resins will be used.

Other advantages are claimed for the use of dies and pressure a perfectly balanced plane will result. Absence of skin friction will add 35 miles to the speed. The use of the new method of Standards should that a greater weight-strength is achieved by the fire-proof plastic than by fabric construction.

This is news of very great importance at this time. In his statement Mr. Beakland gave credit for the new principle to Col. V. E. Clark, retired from the army and aeronautical designer, and to the Beakland Manufacturing Corporation of Chicago, which, with experts from the Beakland Corporation, worked out the principle into practice. Workmen now engaged in fuselage and wing making will be freed for assembly work on the new plastic planes.

Editor, Bulletin: Mr. Bennett, our late prime minister, gave another fine speech from St. John's New Brunswick, on his departure from Canada, the country he loved so well, to a full house of people who were gathered to see him. It was a political speech, and a full of invectives against the present government, and a full of promises for the future.

He mentioned me of a slave which takes away the life of the people, and what a picture of the true democracy retaining only the large and coarse material, the selfish lusts, the greed, the envy, the ambition, the power, the money, the fame, the glory, the honor, the respect, the admiration, the love, the affection, the friendship, the loyalty, the devotion, the sacrifice, the heroism, the courage, the valor, the bravery, the gallantry, the chivalry, the nobility, the grandeur, the majesty, the splendor, the glory, the honor, the respect, the admiration, the love, the affection, the friendship, the loyalty, the devotion, the sacrifice, the heroism, the courage, the valor, the bravery, the gallantry, the chivalry, the nobility, the grandeur, the majesty, the splendor, the glory, the honor, the respect, the admiration, the love, the affection, the friendship, the loyalty, the devotion, the sacrifice, the heroism, the courage, the valor, the bravery, the gallantry, the chivalry, the nobility, the grandeur, the majesty, the splendor, the glory, the honor, the respect, the admiration, the love, the affection, the friendship, the loyalty, the devotion, the sacrifice, Extra coupons will be run during this offer. It is not too late to start saving the coupons and with six coupons and 39 cents you can get one volume. Volumes 1, 2, 3, 4 and 5 are now on hand. Thousands of Bulletin readers have started their sets. You cannot afford to miss owning this beautiful set at 39 cents a volume with six coupons.

12 VOLUMES

Almost a Gift!

Imagine securing this beautifully bound encyclopedia, that cost \$250,000 to compile, at this giveaway price of 39¢ per volume. Never before has any publisher made such an offer.

VANCOUVER IS TERMED GREAT FIRE HAZARD

One of Greatest Conflagration Risks On American Continent

VANCOUVER, Feb. 4.—John T. Nader, fire branch manager of the British Columbia Insurance Co., said today that Vancouver is "one of the greatest conflagration risks in the North American continent."

Testifying before a provincial committee on fire insurance, Nader said that Vancouver is "one of the greatest conflagration risks in the North American continent."

He said that Vancouver is "one of the greatest conflagration risks in the North American continent."

Terry Pin's Tips On

No Sign Boards, Service Stations On New Highways

TORONTO, Feb. 4.—C. A. Rob-

bins of the Ontario highway de-

partment said in an address that

the government will not permit

construction of service stations,

cafes and sign boards on the

new four-lane highways. "Ont-

ario's new roads are being built

with the idea of returning the

landscape of the countryside as much

as possible," he said.

National System Of Scholarships Will Be Urged

OTTAWA, Feb. 4.—A national

system of scholarships will be urged

as a part of the government's

policy to encourage Canadian

students to study in Canada.

The plan was announced at a

conference here March 24

organized by the Association of

Canadian Universities, when the

system will be drawn up for presentation

to Hon. Norman Rogers, labour

minister.

Curious World —By William Ferguson

Answer: Ceylon is off the coast of India, Tasmania is just south-east of Australia, Madagascar lies to the east of southeast Africa, and Sicily is located at the toe of the Italian boot.

FARMERS GET DEBTS SLASH OF 8 MILLION

Federal Act Gives Average Cut Of 38.88 Per Cent. In Principal

Debts of 1,445 Alberta farmers have been slashed \$11,675,716 by the Board of Review appointed under the Farmers' Creditors' Arrangements Act, an average write down of principal value of 38.88 per cent. It was disclosed in a statement issued by board of review officials Saturday. The review under review is by the completion of the board up to Jan. 25.

In addition to principal slashed interest reductions gave these farmers a four year saving of \$19,285, or an average of \$20,131 for each farmer.

Special indebtedness of the farmers was \$1,445,716, which has been reduced to \$1,040,482.

AVERAGE DEBT
Average debt of the farmers was \$1,445,716, which has been reduced to \$1,040,482.

In the Edmonton district 20 farmers had their indebtedness reduced from \$2,015,010 to \$1,215,000, an average debt reduction of 39.16 per cent. First year interest saving totaled \$114,081.

NORTH AREA
In northern districts, 1,425 farmers had their indebtedness reduced from \$1,150,000 to \$750,000, an average debt reduction of 35.66 per cent. First year interest saving totaled \$100,000.

South Area
In southern districts, 1,425 farmers had their indebtedness reduced from \$1,150,000 to \$750,000, an average debt reduction of 35.66 per cent. First year interest saving totaled \$100,000.

West Area
In western districts, 1,425 farmers had their indebtedness reduced from \$1,150,000 to \$750,000, an average debt reduction of 35.66 per cent. First year interest saving totaled \$100,000.

East Area
In eastern districts, 1,425 farmers had their indebtedness reduced from \$1,150,000 to \$750,000, an average debt reduction of 35.66 per cent. First year interest saving totaled \$100,000.

Southwest Area
In southwestern districts, 1,425 farmers had their indebtedness reduced from \$1,150,000 to \$750,000, an average debt reduction of 35.66 per cent. First year interest saving totaled \$100,000.

Northwest Area
In northwestern districts, 1,425 farmers had their indebtedness reduced from \$1,150,000 to \$750,000, an average debt reduction of 35.66 per cent. First year interest saving totaled \$100,000.

Central Area
In central districts, 1,425 farmers had their indebtedness reduced from \$1,150,000 to \$750,000, an average debt reduction of 35.66 per cent. First year interest saving totaled \$100,000.

South Central Area
In south central districts, 1,425 farmers had their indebtedness reduced from \$1,150,000 to \$750,000, an average debt reduction of 35.66 per cent. First year interest saving totaled \$100,000.

North Central Area
In north central districts, 1,425 farmers had their indebtedness reduced from \$1,150,000 to \$750,000, an average debt reduction of 35.66 per cent. First year interest saving totaled \$100,000.

West Central Area
In west central districts, 1,425 farmers had their indebtedness reduced from \$1,150,000 to \$750,000, an average debt reduction of 35.66 per cent. First year interest saving totaled \$100,000.

East Central Area
In east central districts, 1,425 farmers had their indebtedness reduced from \$1,150,000 to \$750,000, an average debt reduction of 35.66 per cent. First year interest saving totaled \$100,000.

South East Area
In south east districts, 1,425 farmers had their indebtedness reduced from \$1,150,000 to \$750,000, an average debt reduction of 35.66 per cent. First year interest saving totaled \$100,000.

Looking Them Over

By Jack Kelly
The Big Rush
Carnival Week
A Grand Show

THE Edmonton Grads crashed into exclusive make company when they were given several pages of a feature article on basketball by *Headline* in the current issue of *Sport*, a rough paper magazine in which the article is featured. This magazine of fiction and fact is published in New York.

The author of the article on basketball has a full page of the magazine of the Grads, their astonishing records and a brief note on their play. In this note the famous coach states that he believes the Grads' team has been made possible by the great tradition passed down the fact that they have a few plays mastered better than any other team in the world.

Probably the most important part of this article is for as Americans are concerned in the statement by Dr. Peter Allen that the Grads are the greatest basketball team, male or female, that he ever saw play. Allen is the coach at the University of Kansas and often referred to in the U.S. as "Basketball's military man."

Headline paper is not to discuss whether or not male basketball competition is better than female, but to show that the Grads are the greatest basketball team in the world.

CANADA WILL SEND TEAM TO SOUTH AFRICA

Canada will send a track and field team and three track cyclists to South Africa for the first time. The team will be announced here Friday by John Leslie, secretary of the Amateur Athletic Union of Canada.

Sergeant Leslie said the Union had accepted an invitation from the South African Amateur Athletic and Cycling Association to send a team of 11 athletes and a manager, along with the cyclists.

It was suggested September 1937 by the South African Amateur Athletic and Cycling Association for the annual South African tour because of the excellent conditions.

Leslie said it was expected the track and field team would be selected from the national championship. The Canadian Amateur Athletic Union will select the cyclists.

Events in which the track and field team will take part are: 100, 200, 400, 800, 1,600, 3,200, 6,400, 12,800, 25,600, 51,200, 102,400, 204,800, 409,600, 819,200, 1,638,400, 3,276,800, 6,553,600, 13,107,200, 26,214,400, 52,428,800, 104,857,600, 209,715,200, 419,430,400, 838,860,800, 1,677,721,600, 3,355,443,200, 6,710,886,400, 13,421,772,800, 26,843,545,600, 53,687,091,200, 107,374,182,400, 214,748,364,800, 429,496,729,600, 858,993,459,200, 1,717,986,918,400, 3,435,973,836,800, 6,871,947,673,600, 13,743,895,347,200, 27,487,790,694,400, 54,975,581,388,800, 109,951,162,777,600, 219,902,325,555,200, 439,804,651,110,400, 879,609,302,220,800, 1,759,218,604,441,600, 3,518,437,208,883,200, 7,036,874,417,766,400, 14,073,748,835,532,800, 28,147,497,671,065,600, 56,294,995,342,131,200, 112,589,990,684,262,400, 225,179,981,368,524,800, 450,359,962,737,049,600, 900,719,925,474,099,200, 1,801,439,850,948,198,400, 3,602,879,701,896,396,800, 7,205,759,403,792,793,600, 14,411,518,807,585,587,200, 28,823,037,615,171,174,400, 57,646,075,230,342,348,800, 115,292,150,460,684,697,600, 230,584,300,921,379,395,200, 461,168,601,842,758,790,400, 922,337,203,685,517,580,800, 1,844,674,407,271,035,161,600, 3,689,348,814,542,070,323,200, 7,378,697,629,084,140,646,400, 14,757,395,258,168,281,292,800, 29,514,790,516,336,562,585,600, 59,029,581,032,673,131,171,200, 118,059,162,065,346,262,342,400, 236,118,324,130,692,524,684,800, 472,236,648,261,385,049,169,600, 944,473,296,522,770,098,339,200, 1,888,946,593,045,540,196,678,400, 3,777,893,186,091,081,373,356,800, 7,555,786,372,182,746,706,713,600, 15,111,572,744,365,493,412,800, 30,223,145,488,926,986,825,600, 60,446,290,977,853,973,651,200, 120,892,581,955,707,947,302,400, 241,785,163,911,415,894,604,800, 483,570,327,822,831,789,209,600, 967,140,655,645,663,578,419,200, 1,934,281,311,291,327,157,838,438,400, 3,868,562,622,582,654,316,676,800, 7,737,125,245,165,313,353,353,600, 15,474,250,490,330,626,706,707,200, 30,948,500,980,661,253,413,413,400, 61,897,001,961,322,826,826,800, 123,794,003,922,645,653,653,600, 247,588,007,845,291,307,307,200, 495,176,015,690,582,614,614,400, 990,352,031,381,165,229,229,200, 1,980,704,062,762,458,458,400, 3,961,408,125,524,916,916,800, 7,922,816,251,049,833,833,600, ALBERTA THIRD OBTAINING LOAN FOR CITY WORKS

Edmonton obtained approval of \$200,000 loan for city works from the Dominion Bank of Canada. The loan is for the purpose of financing the city's waterworks and sewerage system. The loan is for the purpose of financing the city's waterworks and sewerage system.

RAM RIVER IS DRILLING AT 830-FOOT DEPTH

Drilling was proceeding at 830 feet in the Devonian limestone which was encountered at 725 feet. The drilling was for the purpose of obtaining water for the city's waterworks and sewerage system. The drilling was for the purpose of obtaining water for the city's waterworks and sewerage system.

Daladier May Alter Cabinet

PARIS, Feb. 4.—Reports circulated in London of a possible reshuffle of the French cabinet. The reports are that the cabinet may be altered to better suit the needs of the French government.

Austrian Court Sentences Canuck For Breaking Law

VIENNA, Feb. 4.—Austrian Court has sentenced a Canadian man to a term of imprisonment for breaking the law. The man was found guilty of a crime and was sentenced to a term of imprisonment.

For Neutrality

PARIS, Feb. 4.—The League of Nations has adopted a resolution for neutrality. The resolution is for the purpose of maintaining peace and stability in the world.

1,110 Fined For No License Fee

OTTAWA, Feb. 4.—Over 1,100 drivers were fined for not paying a license fee. The fines were levied by the government for the purpose of raising revenue for the roads.

Dense Fog Causes Shipping Tie-Up

LONDON, Feb. 4.—A thick fog in the English Channel has caused a shipping tie-up. The fog has prevented ships from moving and has caused a delay in the shipping schedule.

Mrs. Ida Woods Dies

OTTAWA, Feb. 4.—Mrs. Ida Woods, 78, died of a heart attack. She was a well-known social worker and had been ill for some time.

Executive Meet

CALGARY, Feb. 4.—Executive meeting of the United Farmers of Alberta. The meeting was held to discuss the current affairs of the province and the role of the farmers.

Broomhall

Indications to date point to a sharp decline in the price of broomhall. The price has fallen due to a combination of factors, including a decrease in demand and an increase in supply.

Dominion Bonds

CHICAGO, Feb. 4.—Dominion bonds are selling at a discount. The discount is due to a combination of factors, including a decrease in demand and an increase in supply.

Alberta Oils

By James Richardson and Sons. Alberta oils are selling at a discount. The discount is due to a combination of factors, including a decrease in demand and an increase in supply.

Local Produce

By James Richardson and Sons. Local produce is selling at a discount. The discount is due to a combination of factors, including a decrease in demand and an increase in supply.

Wheat Losses Fractional

WINNIPEG, Feb. 4.—Wheat losses are fractional. The losses are due to a combination of factors, including a decrease in demand and an increase in supply.

Market Movements

At New York: Up fractions. At Montreal: Fractionally higher. At Toronto: Little change.

Wheat Losses Fractional

WINNIPEG, Feb. 4.—Wheat losses are fractional. The losses are due to a combination of factors, including a decrease in demand and an increase in supply.

Little Orphan Annie

YOUTHFUL BRUISES HEAL FAST—ALREADY ANNIE'S BRUSH WITH THE HIT-AND-RUN DRIVER IS ONLY A MEMORY (AND A FEW FADING GREEN PATCHES ON HER FELT)---HER CHEERFULNESS, AMBITION, AND HER FINE COOKING HAVE ENDEARED HER TO THE BUCKLE HOUSEHOLD---AS FOR SANDY, HE ALONE REMAINS A PARTIAL OUTCAST---

DON'T ARGUE WITH ME, GEORGE---YOU KNOW I CAN NOT ABIDE DOGS, ESPECIALLY IN THE HOUSE! THEY SMELL! AND DON'T TELL ME MY HAY FEVER KEEPS ME FROM SMELLING

I DIDN'T SAY ANYTHING, MY DEAR--

HUMPH! NO - BUT I HEARD WHAT YOUR BROTHER TUCK SAYS-- CLAIMS ITS ALL IN MY IMAGINATION---WELL, I CAN SMELL AS GOOD AS HE CAN---

YES, MY DEAR---OF COURSE YOU CAN---ER---HM-M-M---

THEN THAT'S SETTLED! HO-HUM---GOT TO GET UP EARLY IN THE MORNING AND GET TO THE BANK---MUST DEPOSIT THE FUNDS FROM THE RAFFLE- SAFE ENOUGH UNDER MY PILLOW HERE FOR TONIGHT--

WELL, AIN'T DAT JUST DUCKY, LADY? HAND OVER DAT DOUGH---AND ONE SQUEAK OUT O' YER GEORGE AN' I'LL---

Y!! GEORGE!!! HELP!!!

NIX! ME EAR! OUCH!

LEGGO! YEOW! ME LAIG!

MERCIFUL DAYS! A BURGLAR! A TRAMP! RIGHT IN OUR BEDROOM! HE'D HAVE KILLED US! HE HAD A KNIFE--

YEAH! HE MIGHT HAVE CUT YOU UP SOME AT THAT, IF IT HADN'T BEEN FOR SANDY.

THAT DOG! IT WAS THE BRAVEST THING I EVER SAW! WHY, I WAS PARALYZED WITH FEAR---LOOK---IT'S---IT'S SANDY---

UH-HUH! AND HE'S GOT SOMETHING! LOOKS LIKE A PIECE OF THAT TRAMP'S PANTS!

LOOK! IT IS PART OF HIS PANTS---HIS HIP POCKET WITH HIS WALLET IN IT---AND FORTY BUCKS IN TH' WALLET--

HA! SANDY GOT TH' PART THAT WENT OVER TH' FENCE LAST! HA! HA! TH' PART THAT DIDN'T GET OVER TH' FENCE--

OH! OH! YOU---YOU SWEET DOG!

HAROLD GRAY

Maw Green

STOP! I GOT YER NUMBER, YUH BIG--

A FINE SPECIMEN OF A SO-AND-SO! TRYIN' TO GIT AWAY, TOO-- IT'S BIRDS LIKE YOU--

AW! YER DOG AIN'T DEAD--

NO! BUT IT'S NOT YOUR FAULT! YOU TRIED HARD ENOUGH TO KILL HIM---

POSH! WHY ALL TH' FUSS? SUPPOSE I HAD KILLED HIM---

I'D BE GLAD TO REPLACE YOUR DOG--

YOU'D REPLACE HIM, WOULD YE? HA! YE FLATTER YERSELF!

OUT OUR WAY

The Willets

By Williams

OUR BOARDING HOUSE

MAJOR HOOPLE

EDMONTON, ALBERTA, SATURDAY, FEBRUARY 4, 1939.

THIS CURIOUS WORLD

SEA-ANEMONES

BELONG TO A LOWLY ORDER OF ANIMAL LIFE, DWELLING IN SHALLOW WATER, WHERE THEY ATTACH THEMSELVES TO SOME SOLID OBJECT AND WAIT FOR FOOD TO BE BROUGHT TO THEM BY THE WATER CURRENTS.

by WILLIAM VERGUSSEN

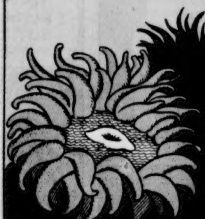

BECAUSE OF THEIR FLOWER-LIKE SHAPE AND COLORING, THEY ARE APTLY TERMED "FLOWERS OF THE SEA," AND A GROUP OF ANEMONES GROWING TOGETHER HAS ALL THE APPEARANCE OF AN UNDER-SEA FLOWER GARDEN.

THEY CAPTURE THEIR PREY BY WHIPPING OUT A LONG, DART-TIPPED COIL FROM EACH OF THEIR TENTACLES, WHICH CARRIES A CHARGE OF POISON INTO THE VICTIM'S BODY.

SHRIMPS, CRABS, FISH AND OTHER BITS OF SEA FOOD ARE ON THE ANEMONE BILL-OF-FARE.

IF THE ANEMONE TIRES OF ONE LOCATION, IT CAN MOVE SLOWLY ABOUT, BY MEANS OF A SINGLE FOOT-LIKE ORGAN.

ONE SPECIES BECOMES AN UNDER-SEA HITCH HIKER BY ATTACHING ITSELF TO A WHEEL SHELL THAT HAS BEEN TAKEN OVER BY A HERMIT CRAB.

FRECKLES AND HIS FRIENDS

By Blosser

I WISH THOSE LADIES DOWNSTAIRS WOULD GO! I'M IN A HURRY AND YOUR MOTHER ISN'T READY!

I HAVE TO MAKE AN IMPORTANT SPEECH TONIGHT!

I'LL GET RID OF THEM FOR YOU, POP!

WHAT ARE YOU LOOKING FOR, SON?

HAS ANYONE SEEN MY PET HOP-TOAD?

OH, GOOD HEAVENS!

I MUST BE LEAVING, MRS. MCGOOSY!!

HOW WAS THAT, POP?

NOT BAD TAG! I'LL DO AS MUCH FOR YOU SOME TIME!

I THINK YOU MADE A MISTAKE, ENCOURAGING HIM TO DO THINGS LIKE THAT!

IT'S APT TO MAKE HIM DECEITFUL! HE'LL FOOL HIS OWN PARENTS THAT WAY SOME DAY!

IT WAS JUST A GAG, MARY! JUST 'KID FUN!

.....AND I REPEAT AGAIN, REACHING THE PINNACLE OF SUCCESS REQUIRES A MIGHTY BIG JUMP.....

"This

old world of ours is full of strange people; strange animals; strange facts and strange fancies. Old Mother Nature works wisely and well, but sometimes her ways are too deep, too

Curious

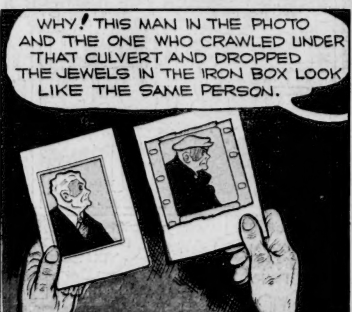

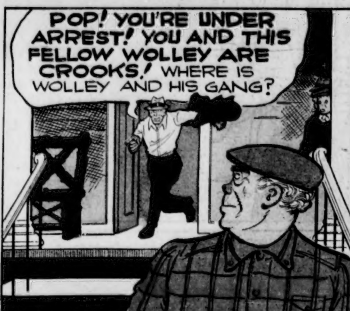

for us to fathom. But there's a way to keep in touch with the vagaries of nature and learn the whys and wherefores of her strange ways. Daily in The Bulletin, "This Curious

World"
